Intro

In a nutshell: I'm am a **Front-end UI Engineer** specializing in **React**, **Redux**, **CSS**, and **Vanilla JS**.

Most Recently: I'm a React / UI Engineer at Insureon working on the Customer Portal Web App using React and JavaScript.

Previously: I was working on BottomlessBrunch.com, a React and Redux based web app. **Before that** I was Lead Front-End Developer at EverSport Media. **Before that** I was a Web Developer at Flickerbox in San Francisco.

Experience

Insureon in San Jose, CA

January, 2018 - Current

Front-end UI Engineer: Co-engineer for building a new customer portal site for Insureon. Portal is built using React, Webpack, CSS Modules, Post-CSS, Babel, React Router, etc. Created custom JavaScript field and validation framework for fast Object-based prototyping of forms and its validation.

- **Customer Portal** (2018)
Javascript / React Engineer, React, Webpack, CSS Modules, Post CSS, JavaScript

BottomlessBrunch.com in San Jose, CA

April, 2017 - January, 2018

Full-Stack UI Engineer: Developed bottomlessbrunch.com, a React and Redux responsive web-app which graphically renders "bottomless" brunch locations in the United States. Integrated Google Maps, Google Places, and YELP APIs. Created administration back-end which combines multiple APIs to create new locations in seconds. Served on an AWS Server through an NGINX proxy with a Node/Express API.

EverSport Media Online Video Provider in Los Gatos, CA

Sep, 2015 - Jan, 2017

Lead Front-end Developer: Lead Front-end Developer for Eversport's themes and modules using JavaScript, SCSS / CSS, Drupal and PHP. Designed and developed the site and the user-interface for the Single Page App media player that ran on 3rd party sites.

- **EverSport.tv** (2015-2017)
Lead Front-End Developer, Co-Designer, Drupal CMS, JavaScript, Sass, PHP
- **Single Page App** (2015-2017)
Lead Front-End Developer, Co-Designer, JavaScript, JSON, AJAX, Sass

Flickerbox, Inc. Agency in San Francisco, CA

Jan, 2012 - June, 2015

Senior Web Developer (Jan, 2014 - June, 2015): Orchestrated the weekly developer meetings; drafted timelines and estimates for future projects; composed technical briefs for client-side contracts; lead web development projects.

Web Developer (Jan, 2012 - Jan, 2014): Architected content structure for websites. Hand-coded HTML, SCSS (CSS), and JS from designs into responsive and interactive pages. Implemented JavaScript libraries and wrote custom JavaScript/jQuery code.
