Intro

In a nutshell: I'm am a **MERN Stack (Mongo, Express, React, Node)** developer specializing in **React**, **Redux**, **ES2015/ES6**, **Sass**, and **Vanilla JS**.

Previously: I was Lead Front-End Developer at EverSport Media, responsible for the consumer-facing and administration themes of eversport.tv as well as the front-end for their Single Page App. Before EverSport, I was Senior Web Developer at Flickerbox in San Francisco, creating enterprise-level websites.

Most Recently: After my last company (EverSport) collapsed, I pivoted my career towards React and the MERN stack.

Experience

EverSport Media Online Video Provider in **Los Gatos, CA**   Sep, 2015 - Jan, 2017

Lead Front-end Developer: Created and updated EverSport's custom themes and modules using PHP, HTML, JavaScript, and CSS. Designed and developed the site as well as the user-interface for the embeddable JavaScript content and video player to run on 3rd party sites.

- **EverSport.tv** (2015-2017)
  Lead Front-End Developer, Co-Designer, Drupal CMS, JavaScript, Sass, PHP
- **Single Page App** (2015-2017)
  Lead Front-End Developer, Co-Designer, JavaScript, JSON, AJAX, Sass

- **EverSport.tv Admin Theme** (2015-2017)
  Lead Theme Developer, Co-Designer, Drupal CMS, JavaScript, Sass, PHP

Flickerbox, Inc. Agency in **San Francisco, CA**   Jan, 2012 - June, 2015

Senior LAMP Stack Web Developer (Jan, 2014 - June, 2015): Additional duties included orchestrating the weekly developer meetings; drafting timelines and estimates for future projects; composing technical briefs for client-side contracts.

LAMP Stack Web Developer (Jan, 2012 - Jan, 2014): Architected content structure for websites. Hand-coded HTML, SCSS (CSS), and JS from designer's PSD files into responsive and interactive web pages. Implemented JavaScript libraries and wrote custom JavaScript/jQuery code.
